

EU wide qualification of professional drivers (lorries) according BKrFQG Modular course for individuals and companies

Due to the directive's requirements (2003/59/EG) of the 15th of July 2003 the basic qualification and the professional development (PD) of the drivers of certain vehicles for road and public transport were implemented in the professional drivers regulation (BKrFQV) of the 22nd of August 2006.

Hereby all european members have introduced further conditions for driving licenses according to basic qualification and professional development (PD) valid up from September 2014. This regulation wants to enhance traffic and personal safety. The legislators hope according the regulation is a more anticipatory driving and a more efficient fuel consumption . The professional development (PD) is structured into 5 modules with 7h each. Every 5 years public authorities (issuing the driving licences) want to get proof by certification of having done all 5 modules.

Intended audience: Professional drivers who have to proof evidence according their professional

driving license.

Duration: All in 35 h (each 60 minutes!) within 5 modules.

Lessons time: every day as agreed including Saturdays from 8am to 4:30 pm.

Degree: Certification of every (!) module to proof public authority to reissue the driving license.

Terms of participation

Registration

The registration has to be done in a written form via Peter Neumann *Handel Dienstleistung Schulung (the establishment for professional development). The content of the information sheet and the terms of participation are going to be recognized within the registration.

Curriculum

The lessons are made under the authorized statutory curriculum.

Costs

The concerted costs are going to be confirmed in a written form (via eMail or mail) within the obligatory registration confirmation. The seminars cost are due to be payed within the contract completion, not later than the beginning of the seminar.

The registration costs are usually included within the seminar costs. Instructional material is not included.

Exceptions are noticed on the customers information. The registrations cost is usually 50€ and due to pay within the registration.

Withdrawal

Before starting the seminar the organisator may withdraw from the contract because of less turn-out for the seminar or other disruptions.

The minimum seminars attendance is to be read within the seminar information leaflet. Anticipated fees will be refunded in this case.

Every withdrawal has to be declared in writing before the seminars start not later than 2 weeks before and is free of withdrawal charge.

The registration fee is not refundable because of the covering purchase of organization.

Extraordinary Termination

The personal development establishment as well as the participant have the right to terminate under certain conditions. This has to be done in writing. The seminars fee are to be payed off up to the termination.

Certification, Performance reports

Achieved tests are to certified by the test establishment. Confirmation of participation are to be issued by the establishment for professional development. These certifications are to be handed out personally at the end of the particular seminar to each participant.

In case of loss or replacement you may ask the administration for reissuance of the form. The reissuance will be charged with € 12,50 each.

For other certifications and confirmations you may ask the administration of the establishment.

The participant who is semi or completely sponsored by a cost carrier cedes the debts to the establishment for professional development and declares that the cost carrier may ask for achievement reports.

House Rules

The participants are informed about compulsory house rules. Any violation will end in revenge and may signify the exclusion of the seminar. Furthermore the establishment may insist on regress.

Conclusive information

If there are separate agreements concerning single seminars the have precedence over the present registration agreement.
